

INVADER SERIES STAGE MONITORS

Invader Series 'powered and unpowered' PA monitors are suitable for use with any of the range of HH mixer amplifiers or powered mixers. Both models are traditionally styled in HH livery, and deliver a high standard of sound reproduction, that is expected from HH products.

Each enclosure has heavy duty protective corners, perforated steel speaker protection grills and a carrying handle.

Although primarily intended for normal monitoring applications the powered monitor has two band EQ and can be used as a small club PA system. The Mic input is a stereo jack and will accept microphones from 150 - 600 ohms. The line input is suitable for Mixers, Keyboards, Drum machines, Tape, CD etc.

MODEL : IS112P

120 watts power section at 4 ohm...Fitted with HH 12"speaker + HF unit...Enclosure impedance 8 ohm...Volume control...Treble control (10kHz)...Bass control (100Hz).
...Speaker output for additional unpowered enclosure (8 ohm)...Headphone listening output (8 ohm).

Size: H370 x W585 x D565mm. Weight: 15kg

MODEL : IS112M

Fitted with HH 12"speaker + HF unit...Enclosure impedance 8 ohm. May be used as an extension speaker to powered monitor MODEL: IS112P.

Size: H370 x W450 x D565mm. Weight: 11.5kg
